

Fall into Halloween

Oct. 17 - Oct. 28, 2011

Fall has finally arrived with cooler weather and beautiful colored leaves. We will begin our theme talking about the fall and all the changes that occur during the season. On the science table, we will weigh gourds and pumpkins and have colorful leaves to examine.

During the second week, we will be talking about Halloween. The dramatic play area will be filled with costumes for the children to enjoy. We will sing silly songs read silly stories, and do silly finger plays. Art will include Halloween bags, leaf rolling, and leaf prints.
